

Faculty / Staff Acceptable Use Policy

Marymount International School encourages faculty and staff to use and enjoy the latest technology to enable excellence in the delivery of the curriculum and extra-curricular life of the School. Technology is also used to create effective management systems and to assist staff in communications with all members of the community.

Marymount International School seeks to provide a safe and nurturing environment for both students and staff. As a professional organisation with responsibility for safeguarding it is important that staff take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. All members of staff have a responsibility to use the school's computer system in a professional, lawful, and ethical manner.

To ensure that members of staff are fully aware of their professional responsibilities when using technology, they are asked to read and sign this Acceptable Use Policy.

This is not an exhaustive list; all members of staff are reminded that IT use should be consistent with the school ethos, school policies, national/local guidance and expectations, and the Law.

- I understand that Information Systems and IT include networks, data and data storage, online and offline communication technologies and access devices. Examples include laptops, mobile phones, tablets, digital cameras, email and social media sites.
- School owned information systems must be used appropriately. I understand that the Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised access to computer material; to gain unauthorised access to computer material with intent to commit or facilitate commission of further offences or to modify computer material without authorisation.
- I understand that any hardware and software provided by my workplace for staff use can only be used by members of staff and only for educational use. To prevent unauthorised access to systems or personal data, I will not leave any information system unattended without first logging out or locking my login as appropriate. I will protect the devices in my care from unapproved access or theft.
- I will respect system security and I will not disclose any password or security information.
- I will not attempt to install any purchased or downloaded software, including browser toolbars, or hardware without permission from the system manager.
- I will ensure that any personal data of students, staff or parents/carers is kept in accordance with the UK GDPR 2018.
 - This means that all personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, including complex, strong, alphanumeric passwords at least 12 characters in length, whether used in the workplace, hosted online or accessed remotely.
 - Any images or videos of students will only be used for school purposes and will always take into account parental consent.
- In recognition that I am supplied with a school device, I will only use a personal device in unavoidable situations.
- I will not store or access professional documents which contain school-related sensitive or personal information, including images, files, videos and emails, on any personal devices, such as laptops, digital cameras, and mobile phones. In unavoidable circumstances, emails from a personal mobile phone may be accessed but only via the School's approved email app.

- I will not store any personal information on the school computer system including any school laptop or similar device issued to members of staff that is unrelated to school activities, such as personal photographs, files or financial information.
- I will respect copyright and intellectual property rights.
- I will immediately report any illegal, inappropriate or harmful material or incidents I become aware of, to the Designated Safeguarding Lead as soon as possible.
- I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, or if I have lost any school related documents or files, then I will report this to the IT manager as soon as possible.
- My electronic communications with current or past students, parents/carers and other professionals will take place within clear and explicit professional boundaries and will be transparent and open to scrutiny at all times.
- All communication with current or past students will take place via school approved communication channels such as a school provided email address or telephone number, and not via personal devices or communication channels, such as personal email, social networking or mobile phones.
- I will ensure that my online reputation and use of IT and information systems are compatible with my professional role, whether using school or personal systems. This includes the use of email, text, social media, social networking, gaming and any other devices or websites.
- I will take appropriate steps to protect myself online and will ensure that my use of IT and the internet will not undermine my professional role, interfere with my work duties and will be in accordance with the Staff Code of Conduct and the Law.
- I will not create, transmit, display, publish or forward any material online that is likely to harass, cause offence, inconvenience or needless anxiety to any other person, or anything which could bring my professional role or the school, into disrepute.
- I will promote online safety with the students in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create.
- If I have any queries or questions regarding safe and professional practise online either in school or off site, then I will raise them with the Designated Safeguarding Lead or the Headmistress.
- I understand that my use of the school information systems, including any devices provided by the School, school internet and school email may be monitored and recorded to ensure the safety of students and staff and to ensure policy compliance. This monitoring will be proportionate and will take place in accordance with data protection, privacy and human rights legislation.
- I understand that the School may exercise its right to monitor the use of information systems, including internet access and the interception of emails, in order to monitor policy compliance. Where it believes unauthorised and/or inappropriate use or unacceptable or inappropriate behaviour may be taking place, the School may invoke its disciplinary procedures. If the School suspects criminal offences have occurred, the matter will be brought to the attention of the relevant law enforcement organisation.
